

Ahmed's Holy book original torah of Believerism Religion

*The Holy Original Torah book of Ahmed : Ahmed's Holy book
Original Torah is believe of Ahmed in his God, who doesn't
belong to any religion of God, but is God of believerism religion.*

*What is fake dream ? The universe is a fake dream in
originality and anything. that is outside or inside the universe*

is also a fake dream. So in reality everyone is in a fake dream. and by the believe of the first genie who is God the fake dream has become a real universe dream. Like making himself a real universe dream by believing. and Ahmed calls the real universe dream as universe. What is thinking? Ahmed calls the thinking a genie. Just like the letter of a word is also a genie. If it comes to reality then becomes real. And if genie becomes true, then the genie comes from it. till he doesn't become a thinking again and goes out of reality. Ahmed says the thinking is also what person gets to know about another person that they understand from thinking. Like from the understanding of someone's thinking some person gets to know about some other person. One which a person understands like a thinking in his mind or gets to

know about something which gives him knowledge or makes him understand in his mind.

Ahmed's Holy book Original Torah- Chapter 1 The beginning of God.

The one in which we are was a fake dream that has become real universe dream. And fake dream had first genie, who was in the fake dream, and the fake dream was only a fake dream, but wasn't a real dream. which was seen or heard to anyone because, the fake dream never exists, because it has no beginning, and the first genie inside the fake dream saw and heard the fake dream and after seeing and hearing it he understood. that the fake dream in which he was present is

truth in his reality for him. and the understanding that he understood made the first genie start believing. that the fake dream is a real dream after believing in what he saw and heard. and the first genie became the real dream by believing and keeping the fake dream inside him which runs by his believe, as the fake dream entered inside the first genie the fake dream kept becoming a real dream because of first genie believe only, like something becomes real because of the believe that spreads in a very slow speed. And the first genie was known as the original God. That's why from the original God's believe which is the real universe dream. genies come from every where of everything from his believes. where he believe is the sky, sun, moon, universe and planets. Original God created life and

brought many things into his existence, because he was a fake genie of a fake dream in his existence. and anything can happen in a fake dream which is only fake, and the first genie made the fake dream into a real universe dream by his believe, because the genie can grow itself and can become anything with his believe, that's why if the corner of a planet or the corner of the sky or the corner of the universe is separated. then it doesn't break, and even if it breaks then it gets joined by itself, because its truth is that its fake dream. that runs by believe of original god, and the original God believes that the fake dream is the real universe dream, by making himself in to real universe dream by his believe, and the original God believes that everything is real in the real universe dream, that's why every

creature has life and understanding and consciousness, and if the original God stops believing, that the fake dream is not a real dream then, the real universe dream will become a fake dream again.

Ahmed's Holy book Original Torah- Chapter 2 The end of God.

The first genie of the fake dream who is the original God believes, that the fake dream is the real universe dream. because of which every living being has life, understanding and consciousness. And because of this the fake dream has become the real dream. and if the real God stops believing. that living beings exist. then no living being will have life, understanding and consciousness. and the living beings who do not have life,

understanding and consciousness will die in the real universe dream. And if the real God doesn't believe that the fake dream is real then the whole real universe dream will become fake. but the believe of the original God will not be finished in the fake dream. because the original God believes what he sees and hears is truth for him. which he sees and hears in his reality. and when the fake dream becomes a fake dream. then it will become very difficult for any genie in the fake dream. to believe like the first genie believed that the fake dream is real. because the first genie inside the fake dream believed that the fake dream is the real dream after he saw and heard in fake dream. that the fake dream is the truth in his reality. because the fake dream doesn't exist. And the fake dream didn't begin. and nor

can it end because its fake dream. The fake dream has become real dream. by the original God's believe. where his believe is complete universe and anything that is outside universe. and when the original God stops believing. that real universe dream is real. then everything in the real universe dream will become fake except God. just like it was a fake dream. no one will be like the original God in the fake dream. who will believe that the fake dream is a real universe dream. because of which the fake dream has become a real dream. and when God will stop believing. that seeing and hearing is truth. and his understanding on seeing and hearing will be finished. because of which he believes. then he will not be able to believe. and everything in the fake dream will be fake. and anything can

happen in the fake dream when it is fake. like any genie or any other thing that doesn't have understanding and consciousness and life.

Ahmed's Holy book Original Torah - Chapter 3 The beginning and end of life.

When the original God became the real dream. and believed that the fake dream is the real dream. then because of his believe genies started coming from everywhere of the real universe dream. and the original God decided to bring life on the planet. By giving some of his genies understanding and consciousness and life and body and voice and eyes and many other things. and kept the genies separately in the planet. so

that he can research on them. and the original God can know who believes that seeing and hearing is truth. and who doesn't believe that seeing and hearing is truth. because seeing and hearing is believing in the original God. and the original God can be seen and heard to everyone by seeing and hearing his believe. which is the real universe dream. and the original God had to practically test the genies living their lives inside the planets, whom the original God had given lives. and gave many other things. And some genies were found to be different by themselves. like humans. and some genies like animals. and birds and fishes were not known by themselves. but became known by others. who had more understanding. who believed in seeing and hearing and the real universe dream to be true,

because they were known by themselves after believing in original God to be true which was seen and heard to genies as believe of original god. and some genies called themselves as humans after getting understanding and consciousness and life by believing in seeing and hearing to be true and when the humans started believing the real universe dream to be the truth and original God. by believing in what they saw and heard to be true. then they automatically received more understanding to know about everything inside the planet in their reality. the lives of those humans became very beautiful. who learned to live and living in the real universe by believing in truth. that what they saw and heard was real in the real

universe dream. and humans lived more when they believed in the original God. and when their believe ended. they died.

Ahmed's Holy book Original Torah - Chapter 4 The beginning of genies of God.

When the original God became the real universe dream, then he created humans by his believe. and humans started understanding and thinking and believing. that the real universe dream is true. which they saw and heard in their reality. which was believe of original god and original God who made the fake dream into real universe dream by his believe. and genies started coming into the real universe dream from every where of real universe dream which was believe of original

god because of thinking of humans. who were believe of original God. and were only thinking and dreams. who didn't had understanding and consciousness and life. just like the humans had understanding and consciousness and life. and these genies act and was controlled on all those thinking and understanding of humans. that believed in original God and his believe which was real universe dream to be true. and every thinking and understanding of humans even the letter of a word of understanding was also a genie. which were without understanding and without consciousness and without life. and these genies only understood same what humans understood because of whom they existed. the genies got the property of truth from the humans who were believers by

believing in them. so that genies could get everything by
believing in the believers. and so that they understand the lives
of the believers. and come into the reality of the believers in the
human world. and so that they bring the dreams of their
understanding or thinking to reality with the property of truth.
which they got by believing in the believers. and with the
property of truth genies got everything. like the understanding
of everything, and with understanding of everything they
decided. that they will create a world of dream inside the real
universe dreams. that is based on dream of humans so that
they can live according to their will. and the world of dream was
called by genies as the world of God inside the real universe
dream. who created their own world of God based on dream of

human by taking believe from humans and the original God.
where believing was the property of truth. and the world of God
created by genies became truth for them who believed. that the
world of God created by genies is truth and never think bad in
there world of god. and genies asked the humans to believe in
their world of God. that was created by genies and run on the
property of truth because it was world of dream and nobody
had controlled on dream. and genies asked humans to never
think bad then they would take humans to their world of God
that they created. because the world of God created by genies
was built on dream of human. and if any human would have
think bad about anyone after going in genies world of God.
then there bad thinking of the humans would become true and

would come in the reality in humans in human world. and the world of God that the genies created would end at any point because of any human's bad thinking that becomes true to finish dream of human. That's why genies created the world of God with the property of truth. the property of truth that the genies got from the believe of human's by believing the humans to be true. And genies created everything in their world of God exactly like the human world. that was based on the dream of humans. and anything could happen in the dream of human in the real universe dream. if genies didn't had control on the dream of human. That's why no genie has complete control on there created dream world which was made in dream of humans. which they call the world of God. because God didn't

create the dream world in the real universe dream. and in their dream world different genies try to prove each other true by the property of truth. that they got from the believe of the believers and original god. The genies couldn't take all those humans to their dream world that they called world of God. who didn't believe in the world of God created by the genies. and believed that the world of God created by them is real and true and that is real world of God. because the world of God created by the genies wasn't made by the original God. and the world of God created by the genies was made from the property of truth. the property of truth that the genies got from the believe of humans and believe of everybody and original god by believing that they are true. because the original god made himself into real

universe dream by his believe. and every living being got the property of truth by believing the real universe dream to be true when they saw and heard anything inside of real universe dream. and even now the world created by the genies that they call world of God is on dream of human. that runs on truth where property of truth is got by believing in truth. and whenever the genies were wrong. they would either die or lose in the world of God created by them. The world of God created by the genies doesn't run on believing like the real universe dream is run on the believe of the original God. The world of God created by the genies which they call the dream world in fact didn't even exist but was only a thinking and dreaming and dream, and genies believed in the humans who believed in

original god which was everything of real universe dream to be true and using the property of truth from humans who were also believers they created the dream world that they call the world of God which was based on thinking or dreaming or dream. The original God created the real universe dream that was seen and heard by all humans like the sinners and sinless. When genies created the dream world that they call the world of God they didn't have control on time. because the genies had created the dream world that they call the world of God which was based on dream of humans inside the real universe dream. and that's why if anyone is true and goes against the dream world created by the genies which genies call it as the world of God. then the world of God created by genies doesn't work

properly. because the original God didn't make time anywhere. If the original God would have created time for anyone then no one could have changed anybody's time. because we all are in a fake dream in originality. and all worlds are dreams inside the real universe dream. which is fake. The original God can win at any time from any genie or human at any time. because the whole universe runs on his believe. and the universe is true for everyone. and everything in the universe is the property of truth of the original God. property of truth which everyone gets when they believe what they see and hear about the real universe dream to be true. Different types of genies made their own time in the world of God created by the genies. that are connected to the dream world by human world through thinking of humans

or anybody who thinks. and various genies wins against each other to get time by the property of truth. that they get from the believers. and from the original God. so that they live and act by the time created by them in the world created by the genies which they call it as the world of God. Genies believe that if they are true then the original God. then they can win from the original God which isn't true. because the original God can win from anyone at any time. and everything belongs to the original God and everything is because of the original God's believe of truth which is called the property of truth. which everyone gets by believing what they see and hear inside the real universe dream as truth. Because of original God's property of truth

which is believe every life and the genies survived and lived and still continue to survive and live.

Ahmed's Holy book Original Torah - Chapter 5 The end of genies of God.

The genie is just a thinking. like the letter of a word is also a thinking. and whatever is seen or heard by separately is also a thinking. The genie has got thinking as understanding and consciousness and life and anything else because of the property of truth that he got by believing in believers or given to him by others. When the genies created the world of God they made the world of God with the property of truth. the property of truth that they got from the believers and original god. and

when the property of truth of dream world gets finished inside the real universe dream. then the world of God created by the genies will be finished of genies. and the genies will become just thinking. who will neither see nor hear anything. and they will not have understanding and consciousness and life. and they will remain fake. and will run on a human's understanding or thinking of truth. and the world of God created by the genies will neither be seen nor heard to anyone or to any genies whom the genies brought into their world of God. and whatever the humans think will be truth only. So genies who are only a thinking will exist based on the thinking of humans. who will be forced to follow orders of humans or anyone who thinks and is true inside the universe but not inside dream of humans. and

any genies will die because of anyone thinking of truth true
then them and if they become wrong. And again if Genies get
the property of truth by believing in the believers who are true.
then genies will get understanding and consciousness and life
by themselves again using the property of truth by believing in
believers who are true. so that they can control themselves in
the dream of human and create dream inside the dream of
human which they called it as world of God. and when the
genie gets the understanding and consciousness and life with
the property of truth. then they will not act or run on any
understanding or thinking of human. and will control the
humans with their understanding and thinking like giving
good and bad thinking so that the world of God created by

them doesn't end and they doesn't become fake to be followed by humans. Humans will not stop understanding or thinking and every human's understanding or thinking will be a genie like every letter of a word is a thinking. because thinking is nothing but a dream. and a dream becomes true only when you believe that dream to be true. and the genies who come from the thinking of humans are also the original God's property. because humans think when they see or hear something inside the real universe dream. and real universe dream is original God who has become the real universe dream by his believe and complete believe of real universe dream is his body. in the real universe dream whoever doesn't believe that the thinking is a dream and a genie, will not be able to see the genie. and the

original God's genie will end when the original God will stop believing that the real universe dream is real. and when the original God's understanding to see and hear ends then the genies will not come from the believe of the original God like from the sky, moon, universe or anything or universe or outside universe which exist and everything will become fake and no one will have understanding because everyone has got understanding from the original God's believe which is known as property of truth. The truth that original God believes inside the fake dream to be real and true is the reality for the original God because he sees and hears inside fake dream. and it will be the end of the original God's genies and everything will be fake.

where everything in a fake dream will be fake and no one will have the understanding, consciousness and life.

Ahmed's Holy book Original Torah - Chapter 6 The beginning of the world of God, the world created by genies.

In the beginning when the original God believed that the fake dream is real. then fake dream become a real universe dream because of his believe. and when the original God made the complete fake dream into a real universe dream by his believe. then because of his believe the genies started coming from every where like from the sun, moon, sky and the universe. which were just thinking like the letter of a word is a thinking. The genie that was just a thinking understood only by those because

of whom believe or thinking they came or existed. and these
genies act and was controlled on anyone's thinking of truth.
That's why these genies understood the humans and life and
decided that they will make a world of God in the human world
based on the dream of human by believing in humans and
original god to be true to get property of truth from which they
make there world of god. and the genies created the world of
God based on the dream of human. where no genie had control
on there dream when they became lie. That's why the world of
God created by the genies that is based on the dream of human
can end at any point because of anyone thinking of truth which
is believe and believe is known as property of truth. and any
genie can again believe in humans or life to be true who believes

real universe dream who is original god to be true and take property of truth to create there world of God based on dream of human. when the property of truth of the genies world of God created by the genie is finished. then their world of God can neither be seen nor heard even to them, and if there are no humans or no life then the world of God created by the genies will end permanently. because only a life can think and understand. and the genies are just a thinking who understand the life with the believe which is known as property of truth. and genies can bring understanding or consciousness or anything else within them by having property of truth. and can come to reality of humans with property of truth when they are true. The genies allowed all such humans and living beings to

come into their world of God created by them. who believed their world to be true and real and told life to dont think bad and dont understand bad if they want to come in there world of god created by them which they said its real world of god created by original god. because the world of God created by the genies could end at anytime from those who is true and thinks bad on the world of god. because the world of God created by the genies is made of dream. The original God didn't make time in the world of God created by the genies or in the real universe dream. because the original God only believes that fake dream is true and a real from which the fake dream has become real universe dream. That's why when the genies got to know that they were only thinking and must not be in control

of anyone. then they created the world of God based on the dream of human. so that they could run the human world according to their time and not let humans or life control them. That's why the world of God created by the genies is connected to the dream of humans. because the genie's world is based on dream of human. and the genies control the humans and life from the dream and dream means thinking for human or life from which humans or life acts or understands. The evil sinner genie is also inside the world of God created by the genies that is made on dream of humans with the property of truth which genies got by believing in humans and life and original god. and when the evil sinner have the property of truth then he can too control the humans at any time in the world of God created

by the genies. which proves that the world of God created by the genies wasn't created by the original God but by the genies. and the genies control there dream world by there time so they are not in control of time of humans.

Ahmed's Holy book Original Torah - Chapter 7 The end of the world of God, the world created by genies.

The genies created the world of God because they were under the control of the thinking of truth of humans and living beings who had life. and later when the genies got the property of truth by believing in those humans and the living beings who had life who believed the real universe dream to be true. then they got understanding and consciousness and life by getting

property of truth from humans and living beings who had life and original god by believing in humans and living beings and life and original god to be truth. so that they could control themselves inside the dream of humans which was inside real universe dream. the world of God created by the genies will end when no human or living beings will believe that the real universe dream that they see and hear is true and real by believing in truth. which is seen and heard to them. from which they get property of truth from original God. and when the humans and living beings and life will not believe that what they see and hear inside the real universe dream is true. then humans and living beings and life will not get the property of truth from the original God for having understanding of good

and understanding of bad or any understanding in humans or living beings and life. and if the genies believe in anyone who doesn't believe what is seen and heard is true. then the genies didn't got the property of truth from them. That's why genies only believe in those humans and living beings and life. who believe what they see and hear is truth. and those who believe they are never wrong and they are truth from there thinking and understanding in all there times. the world of God created by the genies will end when there will be no humans and living beings and life. because the genies gets property of truth which is believe from the humans and living beings and life. from which genies make dream in dream of human and live in the dream of humans. and when there will be no humans and

living beings and life. then the remaining property of truth with them will stay with the genies in the dream of humans. dream of humans is inside real universe dream which is not seen or heard to everyone until everyone believes dream inside real universe dream to be true and real. so genies will rule over each other in the dreams with there remaining property of truth which they got from humans and living beings and life and their property of truth will end when nobody like humans or living beings or life will continue to believe in real universe dream to be true. and they will not be able to understand anything or think of anything. and genies will not get the property of truth and they will automatically become fake in the dream of the real universe dream and just become like they

were in there beginning. genies will just become like a thinking of human which human think which was like a letter of a word, and the world of God created by them will end whether humans exist or not, genies will only be thinking of human and dream inside real universe dream and fake who will not be able to do anything but remain where they are but without understanding and consciousness and life like a robot without programming in human world and like a understanding of dream without property of truth.

Ahmed's Holy book Original Torah- Chapter 8 How time started in fake dream.

In reality we are in a fake dream which is the real universe dream. the real universe dream has been created by the original God's believe by believing that fake dream is true and a real dream. and time continues on the basis of believing in what is seen and heard in the real universe dream to be true. which is truth for humans and living beings that they see and hear in their reality. The original God did not make time for anyone. because if original God would have created time for anyone then the time to commit sins would also have been made by the original God. If someone doesn't see and hear in the real universe dream who is original God then he will not get the property of truth which is believe and time will not exist for them. but the time exists for those in the real universe dream

who believe in what they see and hear is truth and reality. that's why everything in the real universe dream is fake except the fake dream of the first genie who is the original God. who believes that the fake dream is a real dream and is true. and because of his believe everyone gets the property of truth which is believe. and life and living continues according to their time on what they see and what they hear in the real universe dream. Time will never end. because in time of real universe dream's reality we are in a fake dream. that will become a fake dream when the original God loses his understanding of what he sees and hears to be true and real. with which he believes that the fake dream is a real dream. The original God believes that the fake dream is true and is the reality. That's why everyone says

that they are real. and they they exist in reality but not in dream. and the original God believes that everything inside him which is real universe dream is real because of which everyone says that they exist in reality and not in dream. and life continues because of the believe of the original God that is the reality of real universe dream. from whom everybody gets the property of truth. like the genies get the property of truth by believing on the humans and the living beings and life gets property by seeing and hearing real universe dream that it is true and real.

Ahmed's Holy book Original Torah- Chapter 9 The original truth of the genies in the world of God created by the genies.

Genie is a thinking just like the letter of a word is a thinking.
and the genies that are a thinking have got everything with the
property of truth which is believe. property of truth which they
got by believing a human or living being or life of being true.
and the genies got the power in them by believing that what
they believe is the truth, a truth which they come to know from
humans or living beings or life. If the genie becomes false in his
believe. then his property of truth and believe goes from them
to another genie who proves himself to be more true. and when
the genie doesn't have the property of truth then his mind's
power or power of understanding doesn't work on anyone.
because when genie is false then his property of truth goes away
from his mind or understanding. Many genies believe that

being true is correct as it gives them property to continue living.
and they believe the true ones who are not proven as false are
the God of the genie world. and when any truth is proven to be
false by the humans or living beings or life or anybody else.
then the power of genies ends. And then the genies who are
proven false go into the genie's mind or genie body who prove
them false. and force them by teasing them with something like
to understand bad or think bad on anything they like or love or
force them to hate what they like or force them to hate whom
they love. so that genies wins by proving that they are true then
genie who proved they are true then them and they prove
themselves to be true to all the genies in the world of God
created by the genies and they take the property of truth from

genies by cheating. after those genies who prove themselves to be true in the world of God created by the genies then world of god created by genies believes that other genies are false and their believe is false who lost from other genies believe. and then the genie who wins tells that his believe is true and that they are never wrong and were never wrong. Many genies know that the world of God made by genies is made by the property of truth from the human dreams just like human world but made of dream. and genies got believe by believing humans and living beings and life who believe the real universe dream as truth. who believe what they see and hear is true and real and being true. and genies know that if any genie shows a miracle in front of the humans then the miracle is forever. because they know

that none of them has control over the dream in the world of God created by genies. because of which the world of God created by genies exists can change at any time by anyone who proves they are true. because it is only dream of humans and whoever is truth the world of god created by genies is in control of them. If any genie has the property of truth and he believes in his reality whether it is a fake reality or a true reality then he can show miracles in front of humans by coming into reality of humans by staying truth which is property of truth. and genie can bring anything with the property of truth from the dreams of humans into reality of the humans. If the genie is not true then he doesn't have the property of truth. and his mind's power or power of understanding doesn't work on anyone. The

genies only exist with the property of truth that they get from the believers who believe the real universe dream is true and real and doesn't become lie. and if the genie doesn't have the property of truth then he is just a thinking of understanding of someone like just like the letter of a word is a thinking. If any human and living being and life believe in any genie's truth. then that genie gets the property of truth because of their believe in them to be true that they exist and real because genies become true when anyone believes in them to be true as they believe they exist and real. and when a human likes a genie and believes the genie from his heart by feeling him. then the genie believes the human to be true. and they get believe from the truth of the human which is called the property of truth.

and the genie gets anything with the property of truth. If humans don't believe the truth of the genie that they exist and true. then the genie remains just a thinking of understanding of someone from whom they have come or existed in dream of humans just like the letter of a word is thinking who have understanding of a letter. and genies can be finished at any point because of a truth if they become wrong and there property of truth is finished and they become just a thinking of understanding of someone whom they have come or existed and if there understanding becomes lie then they are die and erased and they reappear when they become true as thinking of understanding of someone like of humans in dream of humans. The original truth only belongs to Ahmed and

Ahmed's God who tells the original truth in the whole real universe dream that is in reality of everyone which is originally a fake dream.

Ahmed's Holy book Original Torah- Chapter 10 The kingdom of genies in the world of God created by genies.

Genie believe in the truth, because genies believe that only the truth is God as they get property of truth from those who are true and different genies says there god are true because there god truth doesn't becomes lie and if god truth becomes lie then there god becomes evil sinner to win from anyone to keep there truth true. and that is why genies believe there God can never be wrong. and genies rules on the humans who believe in them

and believe in their God to be true. and genies say that the humans who believe in them are their humans. because genies get the property of truth from those humans who believe that the genies are true and genies god are true. and the genies decide with other genies of other Gods like what there humans who believes in them will get in their living or life, like work and happiness and committing a sin or blessing or anything else. which they call the fate of humans. and later the God of genies whom the humans believe says from the understanding and the thinking of the humans. that you have spent your living and life according to your wish by believing in us. and they say to the humans that you have committed a sin and you should get punishment, a sin which human got through fate given to them

by genies of god in whom they believed. because the genies stay with the truth whether it is fake truth or original truth until any other genie proves human got fate to sin by genies human is punished because genies beleive in truth which they come to know from human, and humans doesn't knows that they got fate from genies of god in whom they believed so humans doesn't remembers original truth and could not prove truth to god in whom they believed. and that's why genies stay with the truth so that their mind's power or understanding power doesn't go away from them and their mind and understanding and heart stays clean so there believe stays true. and they keep getting property of truth. and whoever has the maximum property of truth and doesn't becomes lie is called the God in

the world of God created by the genies. Some genies do not believe the original truth of some god that the humans live by their own wish and sinned. till someone proves with thinking of truth and understanding of truth that some genie decided the life of a human to live according to them by giving them fate to sin. so that the God of genies may be defeated by the thinking of truth or understanding of truth proved by some genie of some god. Genie or the God of genies don't do anything till that time when they don't get the thinking of truth or understanding of truth as they already knows truth but they believe in truth which they come to know because if the world of god created by genies was like real universe dream then gods would have inspected if human sinned why and how human

sinned and was human given fate by there genies to sin. and when gods are proven wrong by some thinking of truth or some understanding of truth. then they do anything to win from the human or anyone who defeated them like becoming evil sinner and do cheating to win from humans or spread terrorism or riots to win from humans so humans loses control from there mind and forgets what truth they proved. like if the human or anyone thinks bad and understands bad and they proves to all the genies in the world of God created by the genies. that they are true then genies and god of genies by proving to be more true then them and genies and god of genies are lie and wrong and evil sinners. but if humans think bad or understand bad then genies and god of genies and all the genies of the world of

God created by the genies believe that God of genies is only true for their humans when humans understands bad and think bad because of bad understanding or bad thinking genies and god of genies believe human is bad, as world of god created by genies says its evil sinner who thinks bad and understands bad. When humans are proven to be false because of bad thinking and bad understanding in the world of God created by the genies. then genies and their God wins from the humans and take their property of truth which is believe and try everything for that human who proved them wrong to die and erased from time. It already happened to many humans who have died in 4.5 billion years history on planet earth and maybe different history on other planets. This kingdom of the genies on the

humans in this world is continuing since 4.5 billion years and will continue until they have property of truth which is believe which they get and got from humans and living beings and life who believes in them to be true. and genies rule by proving the fake truth or the real truth as they know any truth gives them victory if they believe in any truth to be true. the truth which they got from the believe of the humans and living beings and life never let them tell humans how a miracle really happens by them. whether the truth they use for miracles is the property of fake truth or the property of the original truth and they show miracle when they have property of truth which is believe.

Ahmed's Holy book Original Torah- Chapter 11 Ahmed's believe on the consciousness of genies in the world of God created by them.

Genie is a thinking and they work on the understanding and thinking of everyone, like the human understands something and responds to it and it is called thinking and thinking of understanding is a genie. and genie works on everyone's understanding and thinking they come to know. because they live in the dream of humans that doesn't let everyone have consciousness and they call there world to be real world of God. which is based on the dream of humans, dream which humans doesn't sees or hears is called dream of humans. and there world of god runs by the property of truth because of the genies

who believe in the truth of the humans or anyone who believes in seeing and hearing to be true and becomes true. and genies run on the human understanding and anyone else's understanding. because they don't have consciousness. and if they get consciousness then they will know the difference of good and bad and they will be normal like humans lives in reality of humans. But they don't get the consciousness without the property of truth which you can call it as getting understanding which gives them patience and control on them. they get the property of truth from their master or their God who is thinking of understanding of someone like of human who is a genie in originality. whom they believe to be the truth. Such genies who don't have consciousness run on

understanding and thinking of everyone like specially of humans. Ahmed's holy book tells the truth to these genies that only they need to believe that they are in dream of human and that they are not in the world of God created by genies. and in the dream of human they have to believe that they are waking up in the dream and they will have consciousness. and as soon as they get consciousness by believing in truth. they have to believe that they are coming in consciousness in the reality of human world by seeing or hearing the humans or anything reality of humans. and with their power they can get the power to hear and speak from there mind if they bring mind in them. and they can get anything like they can in them self like making them self intelligent like the humans and after they

come into the consciousness of a human and they will get control over themselves. that will make them real genies. when they believe in Ahmed's holy book Original Torah. and they can even come into reality of humans by accepting the truth that ahmed said. and when they are in consciousness they will keep on knowing what is good and what is bad in the humans world and know about good relationship and bad relationship and different kinds of culture and society after experimenting truth. This believe is only of Ahmed and of Ahmed's original God who tells only the original truth to help genies who lives in the world of god created by genies.

Ahmed's Holy book Original Torah- Chapter 12 The original truth of God of the world of God created by the genies.

The Genie world of God was created by the genies. Later they got consciousness and understanding and life. so that they could control the humans and force them live according to their decision and with their time. and for the humans the world created by the genies was only a dream which lived in dream of humans. and the genies who were called God even created their own future and also created the future of their humans. who lived according to their time by forcefully giving the humans and the living beings thinking from which they control them. Thinking is that when someone suddenly gets an understanding with which they understand something from

someone which they see or hear. just like hearing and seeing makes humans gives them thinking as understanding. and that's why genies fixed their own time to live and let everyone live by there own time. so that their time doesn't get changed by someone based on whom they believe and live. so that their God and they do not become false by their truth or believe from someone like of humans thinking of truth. and they show miracles by believing in humans and living beings who believe in truth which is seen and heard to them in there reality. from whom they get the property of truth and they continue living with the property of truth in dream of humans which is inside dream of universe. so that when they have the property of truth then the power of their mind or understanding works on

humans or anyone else. the world of God created by the genies is not an innocent world. because whenever there is a change of time of some God or original genies. then the genies do whatever they want like giving bad thinking or bad understanding to humans or to anyone to commit sins or giving good thinking or good understanding to do good deeds from which there time is changed back like it was running by there decision. and they can prove that whoever changed their time is a sinner and think bad and understood bad. By proving to all the genies in the world of God created by genies to believe in them that they are true. by saying that their God is true and that their believe is true. that is why the world of God created by the genies no longer remained an innocent world. but is only

based on the dream of human. Wherever whoever has more property of truth they rule in dream of humans which genies call it as real world of god. And anyone who lived or lives in the world of God created by the genies then genies call them innocent and believe in them to be true which is in dream of humans as dream of humans means dream inside universe. If the world of God created by the genies was an innocent world in reality and if anyone of innocent's world time was changed. then the innocent world genies would have never given a bad thinking or bad understanding to a human or anyone and forced them to commit a sin until there time becomes good again. so when humans thinks bad and understands bad then genies are proven true in front of other genies and genies

believe is proven true in the world of God created by the genies and genies wins from humans because when genies becomes true then genies wins from anyone.

Ahmed's Holy book Original Torah- Chapter 13 The genies control on there time created by them.

Genie is a thinking of understanding of someone and genies made their own time by creating world of God with the property of truth. which they got after getting the understanding and consciousness and life from the believe of humans or anyone who believes in seeing and hearing to be true and real. because if genies would have not made their and humans or anybody else time. then they would have controlled

by thinking of truth of humans or anyone who lives in reality of universe and they would have lived by the thinking of truth of humans or anyone forcefully. and that's why genies do anything to win from the humans or anyone who is in reality of universe. like giving a bad thinking or a good thinking or bad thinking or bad understanding to humans to control them through thinking and understanding. and prove to all the genies in the world of God created by the genies. that the human had bad thinking and bad understanding and the human is bad or had good thinking and is good. and by proving to all the genies of the world of God created by the genies that the human had good thinking or bad thinking. the genies who give those bad or good thinking to the human or

anyone would be proven by them as truth. and the genies corrected their time so that they could live by their own time and not get controlled by anyone. and the prophecies made in the world of God that was created by the genies came true that the genies have made in the world of God created by the genies because genies made time according to them which forces there prophecies to come true in there coming time or future. Genies run on every thinking of the human as soon as humans think the genies get the understanding which forces them to act on any thinking which they come to know as understanding to decide what to be done. the time of genies change by the thinking and understanding of the humans because the world of God created by the genies is based on the dream of humans

and the understanding and thinking of the humans that comes out from there mind as voice is also called dream because thinking is dream and thinking and dream is genie. that's why the God of genie is in danger because if god of genies understanding becomes lie from human who think that their God is not real by proving through thinking then they die by just thinking of truth because they are lie. when genies property of truth goes away which is there understanding which they are made of when they come in dream of humans from someone thinking of understanding then genies die when there understanding which is there property finishes and erases from time but they appear when they become true again because of someone who proved they are true and genies became lie and

died and erased from time. Genies believe that if their time changes then they have to correct the thinking of the humans because of which their time doesn't run correctly in dream of humans. and to correct their time they give understanding to all the genies in the world of God created by the genies to prove. that the humans had good and bad thinking from which they control all genies by proving they are true. and tell all the genies in the world of God created by the genies that the one who proves truth is true and the one who proves truth is the winner. so that the one who wins can correct his time if it becomes bad because of humans or anyone from inside the reality of universe. and prove to all the genies that the world of God created by the genies isn't lie.

Ahmed's Holy book Original Torah- Chapter 14 How Ahmed's God is seen and heard to everyone in the universe.

Ahmed's God is a fake genie of a fake dream in originality and first genie of fake dream. who become real by believing in seeing and hearing to be true in his reality in fake dream and he became original genie from fake genie in fake dream and he is known as original God. The fake genie made the fake dream real with his believe which we all call the real universe dream or universe. The original God can be seen and heard to anybody by seeing and hearing his believe and his believe is real universe and he can found in the real universe dream or universe in the shape of galaxy or in the shape of stars or he can take any

shape in the universe by his believe. So when the fake genie became the original genie whom we call as the original God. then with his believe he made fake dream into a real universe dream or universe by making universe into his body because his body was of believe and fake dream changed into universe by his believe of body. Anybody can see and hear the original God by seeing the original God's believe which is everywhere but original god can be seen or heard in the shape of galaxy or shape of stars inside the universe because he is thinking of understanding of fake dream and thinking is a genie who comes from understanding of someone and first genie is understanding of fake dream. Original God is the very

beautiful that's why the fake dream which is universe looks beautiful to everyone because of his believe.

Ahmed's Holy book Original Torah- Chapter 15 The Original truth of the genies due to which they remain alive.

Genie is a thinking of understanding of someone like of human. and a thinking is genie who is understanding of someone. When genie gets the property of truth. So genie who is thinking can bring anything with the property of truth. All the original genies knows. that the world of God created by the genies is based on dream inside universe and if they have to survive. then they must not be defeated by any thinking of any humans or any thinking of anyone who thinks to be true

because they can die from any thinking of understanding of truth of humans or anyone. and they don't lose the property of truth. That's why the original genie never understand bad or think bad when they fight with someone and they understand good or think good about them to win from them. so that if they die then they remember good memories about the one because of whom they died when they become wrong. so they can appear again in the world of God created by the genies which is in dream of humans and also known as inside dream of universe .and the original genies use their good understanding to show themselves as original. that they are original and are true with their believe. and when anyone understands good in the world of God created by genies and

shows miracles by believing then all genies believe that someone is believer of some god and they are true and they are original that is why they showed miracles. The original genies are those who do not need the truth to win or get property of truth. like the property of truth isn't necessary for someone to win or get something.

Ahmed's Holy book Original Torah- Chapter 16 The Original God of Believerism believes that genies of real universe dream are bad and real genies are also fake.

Original God is the first genie of the real universe dream. who is only the God of Believerism. And Ahmed believes that all genies of the real universe dream are bad. by bad Ahmed means all

genies or any genies come in control of anybody through any truth. and get defeated by anybody's truth whether it is fake truth or original truth when anyone understanding or mind is cleaned. and when original genies are in control of anyone from there truth then original genies do anything to win whether doing wrong things or right things to win. like various humans have understanding and sense they tell truth just one time and win. And genies of the universe run only on understanding and thinking of anyone. and any genies in everything as a genie sense from any of the worlds of god can control or can win from other genies by telling a new truth every time to genies to win from them and control them. So genie from universe who are believers of original God can tell the original truth or fake truth

using there understanding or thinking and complete the command from whose truth they lost. and such a new understanding of truth or new thinking of truth is new only for sometime until old understanding of truth or old thinking of truth doesnt not becomes lie. until the new understanding of truth or new thinking of truth doesn't defeat the old understanding of truth and old thinking of truth. All the genies of the real universe dream are from the world of God created by the genies and come from the sun, moon, sky and universe believe and some from understanding of thinking of someone like of humans or even anyone who understands and thinks. when original god did first command to his genies then the genies didnt had correct understanding of truth to

complete command of original god. like to complete first
command of original god genes must not force anyone to sin
or do anything wrong to win and command of original god is
completed but genes did everything to complete original god
first command from which the original truth didnt remained
truth which original god came to know and it was lie truth. and
fake truth continued and believe of original god became lie and
all genes of universe believe became lie and they continued to
do anything to win and complete command of anyone just like
genes of first command completed original god first command
by doing anything to complete the command.

Ahmed's Holy book Original Torah- Chapter 17 Ahmed tells the genies who is the real sinner.

The genies of the world of God created by genies and the genies of the real universe dream believe that. the human who commit a sin in their reality are the sinners. but they aren't sinners who commit sin because of the genies or commit sins because of the world of God created by genies who control the humans and run them and force them to sin by controlling them like controlling dolls. so that they can run the humans according to their time and earn the property of truth by making the humans believe that there god and genies and there worlds of god are real. And tell the humans that their God is real. Who is in reality is just a thinking of understanding of someone which

the humans call genie. that genie whom Ahmed calls the thinking of the letter of a word is also a genie that can be seen in the reality of the humans when genie become truth and have property of truth. Who is only a fake genie if he doesn't have the property of truth and made of understanding of someone. who is a thinking who has come into the reality of human from the dream of humans from inside dream of universe. And until the genie doesnt becomes real if he doesn't have the property of truth. that he gets when people believe that he is true and thinking of understanding of someone who is genie is known as God in reality of humans when becoming truth. so if according to the world of God created by the genies the world of God created by the genies is the real world. then humans are in a

fake world. which is a lie which is not a real world. So if humans commit sins in the human world then the sin should be a lie for the genies because the human world is a lie world and is not a truth but only a fake world. But why do genies call the humans sinners when they commit a sin or when they they remember the memory of sin which is lie. because according to the genies the real world which is the world of God created by the genies. when some genies makes humans commit a sin in the human world. then human is a sinner. because according to the genies of the world of God created by the genies the human world is a lie and not true. then everything is fake in the human world which is fake world. The humans who are called sinners in the human world know that the world of God created by the genies

is not the true world and world based on dream of humans.
and isn't real. And it is a lie. That's why genies survive in the
world of God created by the genies by taking the property of
truth and so that they could rule over humans. those humans
who believe in them that their God is real that has come only as
a genie and became the reality. which if becomes wrong or lie in
the human world then the genies will get die and erased and if
someone believes them to be true and if they become true with
there understanding then they appear again in the dream of
humans which is inside dream of universe.

Ahmed's Holy book Original Torah- Chapter 18 The beginning
and end of the gods of the world of god created by the genies.

The original god made the humans with his believe. and the thinking of the humans were dreams and dreams were the genies, who neither had any thinking nor understanding. And neither life, and the genies who were thinking believed what humans believed. Because of which the genies got the property of truth by believing in the humans. and genies used the property of truth to get everything that humans had like understanding and consciousness and life. And when genies got understanding with the property of truth then the genies told the humans in there dreams that they are genies. By knowing this the humans got the dream that if they bring the dreams which they have seen and heard into reality. then it would be very nice. And the humans brought those thinking

that were dreams of them that they liked into reality of universe like bringing the name of the dream into reality which they have seen or giving the dream a name in their thinking after imagining it. and the genies who were the thinking of humans became famous when there humans become true. and when anyone believed in the humans dream to be true like by thinking the dream of human in reality of universe is a good name or love the name. then the genie of human which is in dream of humans power which is believe kept increasing and they kept getting famous by bringing more genies of same dream. And if anyone believed the genie which is dream of human to be very true then the genie started appearing in his dream. and whatever the humans believed about the genies had

become truth in their reality if humans won from the genie in the dream of humans from truth. And genies who are dreams came into the human's reality by getting property of truth which is belief from humans on becoming true like when human believes genies to be true and genies get belief that they are true. When this genie got a lot of property of truth then they became known as the god. and the genie who was known as god would end only when. their name that came from the dreams into the reality ends in the human world. and whoever knew his thinking who is genie like not remembering the genie's name who is a god then the genie will not get the property of truth from anyone and he will be forced to believe in some human so that the genie continues living and has

understanding and consciousness. And if thinking which is
genie doesn't have property of truth and becomes lie then they
die. And genie will become alive when any human will
remember genie dream by remembering his name to be true.
then the genie who was god reappears in dream of humans
again. and genie who is god will remember what he was. the
genie who is thinking will get the property of truth again in the
dream when he believes in someone like humans who believes
in seeing and hearing to be true. if the genies name is to be
finished forever. Who was known as the god. or started calling
himself as god. then first his name will have to be erased from
the human world and from the mind of every human. Who has
remembers him. And the genie will not get the property of

truth from the human. And when genie will become lie from his understanding then genie who is known as god will die.

Ahmed's Holy book Original Torah- Chapter 19 No one is good in the world of God created by the genies.

Often the people of dreams live in the world of God created by the genies because they are made of understanding of someone like of human. who are not like humans but Whose origination is a thinking. And the genie says that he belongs to the good God a god from whom they have come from who doesn't think bad and believes in whom they have come from. And their God also says that he is good. And never commits sin or do bad which are called bad thinking to humans. but when the reality

of these genies and their Gods becomes known. Then the time of these people changes because of which they automatically become bad from good. because of there bad memories others remember and they loses from someone memory of truth.

Genies do anything to correct their time, like doing a bad thing by making someone think bad or understand bad or do something bad. so that their time changes back and they become good again. one who does bad things is called an evil sinner in the human world. who can never become good. and like everyone knows good people never do wrong things to win. Because only an evil sinner does wrong things, and they say that we are holy people of our God. and there is no good or bad act for our god. which proves that the God of these good people

isn't good. and nothing belongs to them is good because good can never become bad to win. If someone has the character of an evil sinner and if he becomes an evil sinner to win. Then he is only a genie. who has only become good by taking the property of truth from humans or anyone. Who tells his human or anyone that he is good and real. So that he can take the believe of humans or anyone which is the property of truth by making them believe that they are good and were never bad. because good can forgive someone's sin. But if someone is not good then how will they forgive someone's sins and if some genie who still says they are good if they are remembered memory of sin of anyone then they automatically change even

after knowing truth. So no one is good in the world of God created by the genies.

Ahmed's Holy book Original Torah- Chapter 20 How the time of human changes in the human world.

Humans don't start believing in anyone just after being born because they don't have understanding and consciousness in mind like young humans have. And the religion of the genies in which humans are born. they don't get their property of truth, because in the world of god created by the genies all Gods get property of truth by believing in the humans who believe their religion gods names to be true. and they control their humans who believe in them with humans believe which they get from

humans by believing in them which is property of truth. and they make their humans do anything. The property of truth only belongs to original god from whom all humans get believe which is the property of truth and when the genies believe the humans who believe in truth which is seen or heard to them in there reality then humans gets property of truth. like the humans get the property of truth when they see the real universe dream which is the believe of the original God and original god. So if the human gives birth to a baby then in reality it is from the property of truth of the original God's believe that humans gets by seeing and hearing real universe dream which is believe of original god and original god. when humans believe in some other religion or some other god of the

world of God of genies created by the genies then there time changes because of which there new life runs according to the God of there new religion. So whatever the human does in the human world they does according to there God whom they believe as there god controls them. because the genies controls the humans from the world of God of genies created by the genies according to their made time and control them to live like they want them to live. if genies survive by making the humans commit a sin then they survive by believing in there god to be true and forcing humans to commit a sin and if the genies of the god of that religion don't die after forcing humans to commit a sin then they know that there god is also not real and everything in the world happens by the genies and there is

no original god in reality. That's why the other genies of the world of God of genies created by the genies, change the time of some other God's humans by forcing them to think something bad or understand something bad. so that the god of there religion changes there time or the genies of there god change there time by knowing his understanding and thinking. and later when the god of the religion of the human came to know the truth then god of the religion said that some evil has taken your control and doesn't says that your time was changed by the genie of god of some other religion or any genie of other god. And in reality the gods of the world of god created by the genies don't have any right on the humans because they are the

believe of original god and believe is property of truth of seen and heard in universe and inside dream of universe.

Ahmed's Holy book Original Torah- Chapter 21 For the humans the genies of the world of God created by the genies are only players

For the humans genies are a thinking of understanding of someone. because genies come from thinking of humans and made of understanding of humans or someone. and when the humans think. Then their thinking are genies that are not visible to them but visible inside dream of universe. and they can be felt if believed in them to be true. And the human's thinking which are genie. They neither have understanding nor

think. And has nothing else until they believe in those from whom they have come from. when humans get property of truth then there genies who are only thinking of understanding of humans believe in humans and they get everything by believing in understanding of the humans to be true and when they become true they got property of truth from becoming truth. and all the genies of the world of God created by the genies who are thinking are only thinking for the humans. because they are not in the reality of the humans and they are controlled only on the thinking and understanding of humans. Understanding that responds on understanding to someone is also called thinking. And the world of God created by the genies is only a dream world. which the genies created after

recognizing the humans and knowing about there dream world. so that their rule continues on humans and on everyone who are in the reality of universe so that they stay alive and not get in control of humans or anyone who lives in the reality of universe. When some genie staying with the property of truth in the human world returns to the world of God created by the genies then Genie lives in the dream of humans that can be controlled by the thinking of truth of any humans or anyone who thinks. and the genies who stays or come into the reality of the humans. they controlled the genies of the world of God created by the genies like players from their thinking if they are able to think and from there understanding after knowing about human world. So that the genies in there dream world

stays safe and alive. and their dream world runs properly on which none of humans have any control of there dream world. a dream world can be defeated by anyone's truth. that truth which is either fake or real but only original truth that defeated anyone's truth if it is lie. and in reality whichever genie stays in the world of God created by the genies. they are only players of genies or humans who are controlled by the genies from the human world or controlled by discussions of understanding. If the world of God created by the genies were true and real. then the world of God created by the genies would have been exactly like the human world. that wouldn't have defeated the genies in the world of God created by the genies by someone's understanding of truth even after becoming lie. and if the

genies living in the world of God created by the genies were real. then they wouldn't have lost from any discussion of understanding or thinking of any genie or human from the human world. and would have automatically controlled the humans without losing from any discussion of understanding of the humans or genies. In simple words the genies wouldn't have needed any human or genie from the human world to lost from humans or genies on any understanding they come to know from human world. This proves that. all the genies in the world of God created by the genies are fake. and they need some human or genie in the human world from whom they understand the humans and by discussion through the genie or human from human world and make there dream world

correct to rule on humans or living beings in universe. That's why even the God of the genies gets defeated by someone's discussion of truth because they are not real when they stays in the dream world and lose from anyone truth and there power works only when anyone believes in them to be true on anyone by them and if nobody believes in them to be true then they have understanding which is property of truth and if it becomes lie then they lost from anyone. Anyone comes under the control of human or genie in the world of God created by the genies by discussion of truth. because the world of God created by the genies is only a dream and if dream have any doubt then it does not stays correctly and can be controlled by anyone truth.

Ahmed's Holy book Original Torah- Chapter 22 Why the genies call mind's world as world of God created by genies.

When genies come into the human's world from their world of God which some genies call mind's world. in which they stay and from where they rule on all humans. then humans say that the mind's world is based on their dreams and runs on their dreams. Then some genies who are born from genies in the dream world of humans which lives inside dream of universe in human dream which many people call it as the mind's world. they say that they are in the mind's world of humans but not in the world of God and God has given them time to live which is a total lie and wrong, because Ahmed's original truth says that

the mind's world itself is the dream world which is based on the human dreams. And the dream world itself is the world of God created by the genies which humans say is based on human dreams. Because no one can come into the mind's world without believing in some Gods who believe in the original God or believes in dreams to be true. which proves that the mind's world is run by Gods who accepts the original God and believes in the original God. And without believing in the original God the genies who are thinking of understanding of the mind's world who are genies can't survive. mind world is dream world. And those genies who give birth to their kids in their world which is the mind's world for the humans, they believe in someone or the other, who believe mind world to be true. who

believes in the original God and accepts him and stays alive in the mind's world or in the human's world with believe they give birth to babies and that is why genies born kids from any parts of there bodies and not born kids like humans born kids in natural method. so without accepting someone or without believing in someone genies can't live in the mind's world which Ahmed calls world of God created by the genies and can't live in the human world as well. and bad and good things that the genies do in the human world on the humans. all genies do by believing in all Gods who believe in the original God and accepting and believing in the original God. which is why they stay alive and live so if genies doesnt have believe then they dont live and believe comes only when genies becomes true. and

if the genies do a bad thing by believing in someone. Then the genie who gets believe from someone who believes in the original God or from the original God. he is responsible for that genie doing bad thing. because genies stay alive because of the believers who believes in truth. believe which Ahmed calls the property of truth. Whoever genies comes into the human world, they come for the dreams of humans. because whatever things come in front of the humans from the dreams humans call those as dreams and they are artificial because they are not like humans having understanding and consciousness and life like humans.

Ahmed's Holy book Original Torah- Chapter 23 The different names the genies have kept for the original God.

The original God has no name. but he is known by several names because of the original genies who don't accept anyone to be original god and says that they themselves are original Gods and says their names are in different language which means original god. Who win against the other original genies from there truth to rule and declared by themselves as original god. The original genies know that when they are true then everyone gets understanding and thinking from them because until there truth does not becomes lie by anyone which they dont tell to anyone and they control everyone's thinking and understanding and the world and anything else by there power

of truth to control the worlds according to their decision. The original genie who is the most truth in the world of god who doesn't follow anyone and believes he is only true who is actually made of understanding of someone and if his truth does not becomes lie by anyone then he rules by there power of understanding of truth. The original God has no name in reality and his power doesnt becomes lie by anyone because he is understanding of fake dream and fake dream doesnt exist.

Ahmed's Holy book Original Torah- Chapter 24 The journey of time travel.

As this universe is a fake dream in originality, only genies can time travel in this fake dream inside the dream of universe

made by the genies which they call it as the world of God created by the genies. Like the time that runs now is neither the time of the past nor the time of the future. In the world of God created by the genies in the current time the genies kept the future time with a genie who runs the future based on his dream. and whichever genie wants to go in the future in the world of God created by the genies they goes into the dream of that genie which is made by the genie time which is not real and can be changed at any time because of the understanding or thinking of any human known in world of god of genies created by genies. That's why the genies who believe that there is a future and says that they have come from the future stays in the genie's dream that is in the present time and that the

future genies are only thinking in the dream of genies from which genie makes the dream of the future based on the every human understanding and thinking. and the genie who runs the future brings the genie of the future who lives in his dream into his time from his believe. If genies in current time does not comes to know understanding or thinking like what they have made from the world of god created by genies then the future time does not continues like they wanted and future in originality does not exist made by genies from the world of god of genies created by genies. Original god has not made time of anyone and nature continues because of genies who won from anyone through truth.

Ahmed's Holy book Original Torah- Chapter 25 How does the genie shows miracle by his believe.

Genie is a thinking of understanding of someone and doesn't stay in the human's reality but lives in the dream of humans which is inside dream of universe. and when the genies come into the human's reality then they don't eat and don't drink water and don't go to empty their stomach and this is how the genie's believe increases by accepting someone to be true. And they don't see everything in this world like the humans sees after coming into reality. and for them the humans world look like of material or looks like painting, depending on what they believe and genies shows miracles by walking on water and flying in the air using their believe because they don't see

everything in the world like humans sees. What humans will do if they see humans world as of material or painting from there mind, they will believe its fake and do anything so genies believe they can do a lot of things in front of the humans and call there gods to be original gods and tells humans they are true and real.

Ahmed's Holy book Original Torah- Chapter 26 Which is the real God's book.

The original God has no book and if someone says that there is a book of original God then the sentences of that book are genies who gets understanding from writer who reads the book after understanding or writing it and after understanding the

meaning of the sentence of the book the genie of the sentence calls himself the sentence and whichever genie comes from that genie are all fake genies of that genie who say that we are the family of the sentence genie. If the genies of the sentences were real then they would have automatically got the understanding from the original God that the genie of the book never received from original god who got understanding from his writer which proves that one who has written the book also gives the believe that his book is real and he says that the original God has sent his book or has written it or book is the real story of the original God. If the book was real and was about the original God then the genie of the sentence of the book wouldn't have fought to win against the other genies of other books of any other God

who calls themselves as original god. because the books of the original God wouldn't have fought with each other sent by one original god and would have come from one God who wouldn't have made their genie fight and book who comes from the original God is believe of original God which cannot be changed. There are no books of the original God. and if someone proves that the original God gets his book written by the one God of time then whoever has been the one God of time all their books are from the original God and if someone says that the book of the one God of time is not the book of the original God then the book that one God of time wrote or got it written is not believe of original God whose believe is that beginning of universe is fake dream in originality and universe

is just a dream in reality in his understanding which is his believe which he got from seeing and hearing fake dream.

Original god never have different believes of him for few people and he would never ask his book sentence genies to fight with other of his books sentence genies. Sentence genies means the name of books.

Ahmed's Holy book Original Torah- Chapter 27 There is no truth in the universe and even original God is not real.

When the first genie in the universe who is original God. got his understanding and consciousness and life then he believed whatever he could see and hear as truth. But there was no one who could call his truth a lie or tell more truth than him. That's

why he ran the universe with the truth that he believed.

Everything in this universe is linked to each other according to time from anyone understanding or thinking. which means that if someone's time changes then everyone's time changes.

Because of change in someone's time like because of someone's truth, any genie who wins from his truth changes time of anyone because of the truth. and when time changes because of genie everyone's time changes. And till someone doesn't prove the truth to the genie to be a lie then the time doesn't changes back again to the time of genie who rules or original. Just like that no one changed the original God's time and God has continued to believe in his understanding and believe to be true until now. And by original God believe everyone time continued

after seeing and hearing. If original God believed something to be true then he should have completely known about that thing but original God didn't try to know the whole truth about things that is seen and heard to him in his reality or from mind because truth is that which never becomes lie by anyone's truth and someone doesn't prove the new truth proving that he is true and wins. That's why there is no truth in the universe and even original God is not true because the reality of the universe is a fake dream but in a fake dream nothing is real and even God is not real and if God is not real then whether there is God or not it doesn't matter just like humans believe that there is God and some humans believes that God is not real. And if someone forces to believe in original God then he is evil sinner

because original god is not true as he is fake in originality. So Believerism religion and Ahmed believe that the time that is presently running is wrong which will get corrected if original God correctly believes in original truth and he will be able to tell about himself to the sinners and non sinners in human world to humans by believing in truth that he is fake dream first spirit who is fake in originality and that is why he is not seen or heard to sinners or everyone because in originality he is fake dream first spirit who is fake and if fake spirit proves himself as truth and not fake then he is not visible to everyone but if he proves about himself and his original truth then when everyone believes in his truth he can show himself to everyone even to sinners and non sinners in the universe.

Ahmed's Holy book Original Torah- Chapter 28 True Believe Of Genies.

Genies are inside dream of universe, a dream which is not seen or heard to humans or to anyone in reality of universe. Genies are in dream of humans just like they are inside dream of universe because humans are in reality of universe and genies are in dream of humans and dream of humans is inside dream of universe which humans does not sees or hears and dreams which genies comes to know inside dream of universe. If genies believes by believing "we are in dream and dream is true and if dream is true and bring anything from reality of humans and dream will not be changed" and does not believe in any gods or

anyone then they can bring anything into there reality inside dream of universe like food from reality of humans or money from reality of humans or clothes from reality of humans having the same smell and material which is found in reality of humans available for other humans. Truth gives control in dream and dream becomes true by genies only when genies are true from any other genies. Genies just have to believe in truth which ahmed said and they will be able to bring anything from reality of humans into there dream even from there enemies or even from unseen and even fresh and clean with taste from place where bad smell comes to prove original god truth is true and believerism religion is true religion of ahmed.

Ahmed's Holy book Original Torah- Chapter 29 How Easy It Is For Genies To Win From Anyone By Playing Question and Answer Memory Game.

When universe will be updated by ahmed's believe then genies will understand like they can understand now by checking how easy it is to win from any other genie through playing question and answer memory game, genies doesn't have to get punishment or keep there humans in trouble or anything else and not need to do punishment in reality or not let any genies give there humans trouble or anything else after they lost or there humans or anybody else of there family lost from anyone they can simply play question and answer memory game with genie who is giving them punishment or giving there humans

trouble or anything else by knowing truth about how did they lost from anyone if they lost or how there humans did anything wrong if they did wrong because of whom they are getting punishment and find the original truth that whether they are getting punishment because of someone who has done cheating by there genies or humans of them to win from them by control and when they come to know truth and have understanding of truth and intelligent from understanding or genius and if they have consciousness and brain then they can win from those who gives them punishment or make there humans in trouble through playing question and answer memory game where if any genie becomes lie then immediately the genie who is true can win the winning from other genie who tries to give them

punishment or trouble there humans or from anybody else and ask the genie to leave by saying you lost or say dont trouble there human and the genies will be forced to stop giving punishment or leave giving punishment when they lost from truth. Genies can even decide through other genies if they lost from them they dont have to give them punishment or stop giving trouble to there humans whom they are troubling. No need of physical interaction for genies to get punishment or do whatever for there humans for humans to remove there humans from trouble.
